SUMMARY

Final-year Human-Computer Interaction student specializing in user-centered design, usability testing, and research-driven product decisions. Experienced across the full UX process — research, information architecture, prototyping, and testing — with a bilingual, Arabic-first focus.

EDUCATION

Umm Al-Qura University — Makkah, Saudi Arabi

Expected 2026

Bachelor of Science in Human-Computer Interaction · GPA: 3.64 / 4.00

SKILLS

UX Skills: User Research, Usability Testing, Information Architecture, Wireframing, Prototyping, User Flows, Interaction Design, Heuristic Evaluation, Design Systems, Accessibility

Design Tools: Figma, Adobe Illustrator, Adobe Photoshop, Prototyping Tools

Technical Skills: HTML, CSS, SQL, Java (basic), Excel, Power BI (basic)

Soft Skills: Communication, Problem-Solving, Time Management, Creative Thinking, Collaboration

PROJECTS

UX Designer — Mishkat Platform (Graduation Project)

- Designed a user-centered mental well-being platform end-to-end, from research through high-fidelity prototype.
- Conducted user research (interviews and surveys) to identify emotional pain points and user needs.
- Built personas, user journeys, information architecture, and wireframes to structure the experience.
- Created an emotion-based design system with AI safety guardrails (no diagnosis, no medical advice) and ran usability testing across iterations to improve task clarity and user flow.

UX/UI Designer — Jarir App Redesign (Information Architecture)

- Restructured the app's information architecture in an academic IA project to simplify navigation and search.
- Reorganized content into clearer categories through a content audit and user card sorting.
- Designed and prototyped updated navigation and search flows in Figma.
- Usability testing showed up to **51% faster navigation** and **100% task-completion success** on key tasks.

UX Researcher — HungerStation App

- Analyzed user satisfaction data and usability pain points for the food-delivery app.
- Conducted surveys and interviews and synthesized findings into a research-based UX report with prioritized recommendations.

WORK & TRAINING EXPERIENCE

Project Management Intern — DSShield

May 2025 – Jul 2025

Riyadh, Saudi Arabia

- Processed financial claims and prepared supporting documentation (invoices, POs, delivery notes).
- Analyzed GP & FD forms to assess project profitability and finalized completion certificates.
- Collaborated with the PMO team on live projects using Microsoft Word, Excel, and Adobe Acrobat.

PROGRAMS & MENTORSHIPS

Banque Saudi Fransi University Program

Aug 2024 – Dec 2025

Long-term mentorship and professional development program offered by Banque Saudi Fransi in collaboration with the university.

COURSES & CERTIFICATIONS

- Google UX Design Professional Certificate — 154 hours (Oct 2024 – Dec 2024)
- UI/UX Design Training Camp — 60 hours (Dec 2023 – Feb 2024)
- World Mental Health Day — 20 hours · First Aid Awareness — 40 hours

CAMPUS & COMMUNITY INVOLVEMENT

- College of Computing Club (2022 – Present):** Project Management Team (Project Manager role), Public Relations Committee, Scientific Committee.
- Kibtar Community (2024 – Present):** Media Committee – Design Team; Project Management Committee – Developers Team.
